CHARLES H. CHUTE OF THE MISSION PASSES AWAY

The funeral of Charles Henry Chute, of Mission San Jose, husband of Margaret E. Chute, was held Monday morning at 9 o'clock at a Hayward mortuary. The Rev. Richard C. Day officiated. A service was also held at an Oakland crematory.

The deceased was the owner of Bayview Ranch, where he had been a resident for several years. At the time of his death he was 70 years, six months and ten days of age.

He is survived by his widow, Margaret E. Chute, and one daughter, Mrs. Harvey Gill, of Sacramento; also brothers, John, William, Frank and Zedular Chute; and sisters, Mrs. J. Mahoney and Mrs. E. H. Plummer.

A large crowd of sympathizing friends attended the funeral services held from Sorensen Brothers' undertaking establishment in Hayward, services following at the Oakland Crematorium. Many beautiful floral offerings were brought by friends of the deceased and of the bereaved survivors. Great sympathy is extended to the family.

REV. STEVENSON IS CALLED TO DALY CITY

Dr. Mathes To Serve Both Irvington and Newark Congregations

Rev. John R. Stevenson, who resigned several weeks ago as pastor of the Irvington Community church, has received a call from the First Presbyterian church of Daly City, and will enter on his new duties in about two weeks. The new church offers a larger field of service, Mr. Stevenson thinks, especially with regard to young people's work.

Dr. E. E. Mathes, of New Mexico, is the new minister who will carry on the work at Irvington. He will occupy the pulpit for the first time on Sunday morning, June 9, at 11 o'clock. Dr. Mathes will also serve the Presbyterian church at Newark, this pulpit having been vacated several months ago by Rev. J. H. McCall who is now in San Leandro.

Mr. Stevenson has been an active leader in the community life of Irvington during his pastorate. He was scoutmaster for the Irvington Boy Scouts and served as secretary of the Chamber of Commerce, also taking an aggressive part in the social life of the

One of the most successful garden parties in the history of Toyon Branch of the Baby Hospital Association was that given Saturday at the home of Mr. and Mrs. J. C. P. G. & E. Selects Niles For Demonstration Of Electroliers

THREE STREET lights, ornamental electroliers, have been installed on Niles' First street in the theater block by the Pacific Gas and Electric Company this week, as a demonstration of what proper street lighting can do for a town. The globes rest on ornamental brackets and are a distinct addition to the appearance of the block not only at night but in the daytime as well.

This installation was brought about through the efforts of George L. Donovan, local agent of the Pacific Gas and Electric Company.

Country Club Elects Officers At Last Meeting of Season

Although attended by only 27 members, the meeting of the Country Club of Washington Township Tuesday afternoon, the last gathering until the annual luncheon in September, was one of the most enjoyable of the year.

Election of officers to take the place of those whose terms had expired featured the business meeting. Mrs. Water Robie, president, Mrs. August May, recording secretary, Mrs. Frank Dusterberry, financial secretary, Mrs. Harry Cushing and Mrs. E. A. Ellsworth, directors, were re-elected. Mrs. W. L. McWhirter's term of office as treasurer expired and Mrs. D. A. Fitzgerald, of Centerville, was elected to fill this place. Mrs. J. E. Townsend was made director to fill the vacancy caused by the expiration of Mrs. Robert Blacow's term. Members of the nominating committee were Mrs. F. V. Jones, of Niles; Mrs. Searles, of Decoto, and Mrs. R. L. Pond, of Irvington.

Delegates Report
Reports of the Santa Cruz convention were given by Mrs. Etta

Chadbourne, Mrs. August May and Mrs. Howard Chadbourne. These reports included stressing of forest preservation and censorship of motion pictures. The speaker suggested that instead of expressing disapproval of pictures after they were finished it would be more effective if club women would write producers what kind of pictures they did want and what kind they did not want before said pictures were made. A case of an ounce of prevention being worth a pound of cure, according to the speaker.

It was reported that there are at present 221 Federated Clubs in the state of California. All clubs were urged to celebrate the anniversary of the state federation on January 17.

The president, recording secretary, and financial secretary gave their annual reports.

Mrs. J. E. Thane gave a eulogy in honor of the late Mrs. Mary Allen, first president of the club. Mrs. Thane was elected parliamentarian.

BANK OF ITALY IS NEWEST ADVERTISER

"Manager" Solicits The Patronage of Township For His Concern

One of the Register's newest advertising patrons is The Bank of Italy, an organization that obviously proves that just because success has been achieved, is no reason that advertising is unnecessary.

One of the excuses often made by concerns for not giving their business proper publicity is that "they have all the business they can handle" or that "they have been established for forty years and everybody knows 'em." This is shortsightedness and bad business judgment as proved by the action of the Bank of Italy, one of the largest advertisers in the country.

This organization not only believes in advertising, but it believes in newspapers and the newspapers' ability to be of service to the community and that as such, they deserve the support and cooperation of the business men of that community.

Frank Dusterberry, of Centerville, has charge of the local branch of the Bank of Italy and solicits for his organization the patronage of the township residents. The integrity and ability of the men in charge of its affairs has long been proved and they are in a position to give advice upon all financial matters.

A bank is designed for more than merely a safe place for keeping money. It is a public institution to a certain extent, qualified to guide and protect the financial life of the community which it serves. A wise man consults his banker before making any kind of an investment, hence it is to his interest and profit to have a banker upon whose advice he can depend and upon whose personal integrity he can rely.

The Register welcomes the Bank of Italy to its columns, offering as it does the opportunity for this institution to reach practically all the people of Washington Township, and this paper sincerely hopes that the business relationship will be mutually helpful.

Seventeen Graduates To Receive Diplomas On June 12

The Decoto Grammar School will hold its graduation on Wednesday evening, June 12th, in the school auditorium.

The program will consist of two parts: a two-act musical play, El Toroso, to be followed by the more formal exercises of graduation. County Superintendent of Schools, David E. Martin, will make the address to the graduating class.

About forty children will take part in the play, El Toroso. Early California history is the theme of the play, the days of the Spanish dons, the fiesta, and roving bandits. The scene is laid at the ranch home of Don Fernando near San Luis Obispo, in 1838. It is the day of a fiesta, the birthday of the daughter of the host. Manuel Seare will be Don Fernando; while his wife, Dona Luiz, will be played by Thelma Nevis. La Chuparosa, their daughter, will be played by Olive Perry; Don Mariano Pena, by Clyde Rivera.

Others in the cast will be Gloria Duperroir, Alirra Silva, Valentine Delgado, Joseph Silva, John Santiago, Julia Delgado and Matilda Silva. There will also be Spanish dons and their ladies, washerwomen, and dancers.

A LITTLE MONEY AND A LOT OF PUSH

NILES CANYON is probably the greatest asset of this locality. It can be made even a greater benefit to this community by a little exertion, and possibly the expenditure of a few hundred dollars.

At the present time there is a natural pool underneath the steel bridge, about a mile up the canyon. Picnickers avail themselves of this restricted water area to swim. Children, and adults as well, swim about in the clear waters of this little part of Alameda Creek, and, while it is quite shallow, find great amusement spending a day or an hour at one of California's most enticing scenic spots. Every Sunday it proves to be the most popular spot in the canyon.

This swimming pool is very small and only deep enough to swim in for an area of perhaps a dozen square yards.

But it is possible to dam this part of the creek and impound a body of water of respectable size. This could be done at a minimum of expense if the citizens of this town would organize a shovel and scraper brigade and do the work themselves, under the supervision of either the county road department or by direction of the Spring Valley Water Company.

Permission, of course, would have to be secured from the city of San Francisco. This doubtless would be authorized, with the understanding that the dam be removed in the fall.

With a big swimming pool at our very doors, Niles would find the city securing a great deal of added business, on week-ends especially. It would also add to the attractiveness of Niles as a place to make a permanent home. Besides, our citizens would have a lot of pleasure using the swimming pool themselves.

Here is a chance to do something really constructive, and at but a small outlay of money. It will take some work—but that is what we need here—more work and less talk. Perhaps a little less eating would be in order, also.

Come, let us get behind this project, now. Summer is here. Construction of this pool will stimulate business in practically all lines.

A slight investment in dollars, and an energetic physical co-operation with pick and spade will bring to Niles Canyon an added attraction and to our merchants dollars and cents.

Can we grasp our opportunity when shown how easily it can be secured—or will it be again a case of bored indifference, a resort to the over-worked "manana?" Tomorrow—next year!

GENTLEMAN TUNNEY, THE PUG!

THE COUNTRY generally, and especially the sporting world, seems to be considerably exercised over the mooted question of whether 'Gene Tunney, ex-pugilist, bared the romances of his ring days to his aristocratic wife, the daughter of a New Englander, and a member of quite polite society of New York and we must add, of course to make it sound eighteen-carat, Newport. Some say he did, others insist that he told but half the story. If he did, then he was first a charlatan, and later a jackass. There is an excuse for being the first, but none for imitating that long-eared animal in its characteristic assinnity.

A man of notoriety—the writer would not call it fame in this instance—could not hope, or course, to escape his past simply by marrying a girl seemingly bred to higher tastes than the pool-room and the ring-side. No, hardly! So after a few months in sunny Italy "Gentleman Gene" finds that the chickens are coming home to roost.

An old sweet-heart (possibly one of those Ben Lindsey companionate brides) has thrown a snag into the blissful picture of the champion pug of the universe, and tells a story of her relationship with the ring-side idol of pugism. In this respect, it will be admitted that Tunney is no worse than hundreds of other men occupied in more commendable enterprises than marring the facial landscape of an opponent, and amusing, for a consideration, the base instincts of human nature—instincts, 'tis a pity to admit, but slumber in the heart of man.

But Tunney, you know, posed as something better than a pug, and a charlatan. He was press-agented as a gentleman, and a scholar. Most of us

After careful consideration by the worthy judges, Newark's grammar school orchestra under the direction of Frank Gyax (who some day will be a second Paul Whiteman or Tom Gurunavich) was awarded the prize for having the best orchestra of the larger schools, and "walked home with the bacon" in the form of a silver trophy cup. Southern Pacific Train Kills Japanese

M. Ishihara, 28, Leslie Salt Works employee, was killed by a Southern Pacific train Monday afternoon just this side of Hayward at the Mt. Eden crossing, a unique aspect of the accident being the loss of one finger to the conductor of the train which left Niles at 4:40 p. m. going north. The conductor was standing in the vestibule of one of the cars, the third coach from the engine. A piece of the wrecked automobile flew past the engine and first two cars and struck the hand of the conductor, amputating one finger. The car had just passed the center of the track when struck by the pilot of the locomotive. The pilot tore a huge hole in the right side of the light coupe, which was dragged about 1000 feet along the track. The driver's skull was crushed but his body sustained no other injury. Three wheels of the car were smashed and its body demolished.

Ishihara was alone in the car and was returning from his work at the salt works to the home of his sister, Mrs. Yumaki, who lives near the Fairmont county hospital. He was unmarried. A large crowd of motorists, workmen from nearby fields, and a few women and children gathered about the strewn wreckage of the car and the still body of the driver. Deputy Coroner Walter Flierl and Chief of Police Louis Silva arrived to conduct the investigation. The car was taken to the Moon garage for salvage. The train was driven by Engineer Croll. Brakeman T. W. Shannon and Conductor A. M. Moore formed the crew.

A new Solo Endurance Record

FLYING a Wright motored, stock Lockheed cabin monoplane, using Richfield Aviation Gasoline and Richlube Motor Oil, Herbert J. Fahy, chief test pilot of the Lockheed Aircraft Company, set a new solo endurance record without refueling—remaining in the air 36 hours, 56 minutes, 36 seconds.

Fahy took off from Metropolitan Airport at 4:43:05 a.m. Tuesday, May 28, and landed at 5:39:41 p.m. Wednesday—exceeding the record of Martin Jensen by 1 hour and 23 minutes.

Once again Richfield has played an impressive part in an aerial achievement—just as it did in the flight of the Question Mark army plane, in Captain Wilkins' hop over the North Pole, in numerous record breaking transcontinental flights and endurance records.

Use Richfield in your own car for the same reason it is selected by leading pilots and flyers—power, speed, unfailing dependability. And Richlube pure Pennsylvania Motor Oil—it means longer life to your motor.

CHERRY-PICKING SEASON ARRIVES IN THIS SECTION

Cherry-pickers are at work in Niles at present. The trees seem to be unusually laden with first-quality fruit, many local ranchers having received record prices for the crops this year.

S. P. CLAIMS TO HAVE WON FIRST ROUND IN FIGHT

According to Southern Pacific officials, this company has won the first round in its contest with the Western Pacific and Great Northern. It is reported to The Register that official word has just been received from Washington that the Southern Pacific Company's application to intervene in the Great Northern-Western Pacific cases had been granted by the Interstate Commerce Commission.

In one case the Great Northern seeks approval from the commission for the construction of eighty miles of railroad from Klamath Falls Oregon, to Alturas, Calif., approximately fifty miles of which would closely parallel the new Klamath Falls-Alturas line of the Southern Pacific.

In this case, the Southern Pacific contends that the road would be merely a duplication of facilities and that it would serve substantially the same territory being served now, also contending that the proposed line would cut heavily into the Southern Pacific revenue, thereby jeopardizing a heavy investment.

Ignition troubles might be avoided if the wiring is checked occasionally. Often a leak, due to a chafed wire, will cause trouble.

New Tennis Court At J. C. Shinn Home

One of the pleasures enjoyed by the younger set at Toyon Branch garden party Saturday was the new tennis court just completed at the Shinn home. The court lacks only a few feet of being championship dimensions and is one of the best in the township. Friends of the Misses Shinn are looking forward to many events of interest at this new playground and doubtless before the summer is over, amateurs will be playing for trophies. It is remembered that Helen Wills, internationally known net champion, was a Centerville girl, so who knows but another will "come out of Niles?"

cities, San Jose, Cupertino, Los Gatos and other distant points. The large number of children made the affair a gala one and much assistance in the day's program was given by the Campfire Girls and the Boy Scouts.

The program included music by the Amyx orchestra, the Niles Grammar school band, directed by John E. Kimber, and vocal music. The fashion show put on by the girls of Washington Union high-school was especially enjoyable as was the solo dance of Miss Katherine Cobb and the folk dances by Anna Millicent Shinn and several of her school-mates. Tiny tots from the primary department of the Niles school under the direction of Mrs. Charlotte Foster gave a number of songs which were greatly enjoyed.

One group of visitors whose presence was especially appreciated was composed of members of the various Chambers of Commerce and the American Legion who responded to the invitation to attend this event for the benefit of the Baby Hospital Association.

"Fish Ranch Road in high gear"
—made by Berkeley man

Edward H. Morris, Jr., prominent insurance man of Berkeley, says that his Ford car gives him better performance than usual.

"Recently," he said, "I made the long, steep Fish Ranch Grade behind Berkeley easily in high gear.

Very few four-cylinder cars, that I know of, have conquered this hill in high. Not many of the larger cars can do it. I attribute a large part of my success with my Ford to the power and efficiency of Associated Gasoline."

Associated Gasoline starts easily, responds eagerly to the throttle at all speeds, and gives long mileage. It is a clean fuel, refined to insure complete combustion and to minimize carbon formation and crankcase dilution.

Sold at the red, green and cream stations and garages.

STRANGELY mingled were the feelings of the historic gathering as for all time the American flag was hoisted above the small city El Pueblo de Nuestra Senora la Reina de Los Angeles in January, 1847.

Romantic bits of western history such as this are revealed in the Associated Oil Company radio program, "Roads to Romance."

Listen in each Wednesday evening, 8 to 8:30 p. m., on stations KFO-San Francisco; KGO-Oakland; KFI-Los Angeles; KGW-Portland; KOMO-Seattle; KHQ-Spokane.

An "atmosphere" new to the world of banking...

THE "atmosphere" of friendliness, helpfulness, and humaneness which characterizes every Bank of Italy office has been largely responsible for the great success of the state's largest financial institution. Its founder—whose simplicity, straightforwardness, and deep dislike of ceremony, aloofness and private offices, has made him unique among bankers—is responsible for this sensibly human banking attitude. These policies, which the present management helped establish, are today reflected throughout the entire organization in every transaction, large or small.

The Bank of Italy has proved to the financial world the practicability of simple, out-in-the-open, meet-the-public-more-than-half-way banking service.

"IN OLD ARIZONA" COMING HERE ON THREE-DAY RUN

Warner Baxter, Edmund Low and Dorothy Burgess will star in one of the biggest talkie hits of this year to be heard at the Niles theater Sunday, Monday and Tuesday, "In Old Arizona."

Saturday Anna Q. Nilsson will be seen in "Blockade" and next Wednesday and Thursday, Buster Keaton will interpret "Spite Marriage." This evening George K. Arthur and Karl Daw are playing in "China Bound."

"In Old Arizona" is an all-talking picture and a number of local people have already seen it, declaring it to be one of the funniest, most entertaining of the lot. It is a story of "gold digging" in the Bret Harte days with its heroine living in an adobe house on the outskirts of Wolf Crossing, in a stone's throw from the Grand Canyon. The leading men involved are The Crisco Kid, Warner Baxter, a bandit, and Sergeant Mickey Dunn, Edmund Lowe, sent out to capture the Kid.

Plenty of thrills in this for the whole family.

The Graybar makes it possible to do your own laundry, keeping the clothes free from strong soaps and lyes, and yet relieves you of the drudgery of wash day.

The tank, seven-sheet capacity, empties itself in two minutes, a water-pump driven by the washer motor being a special feature of this new machine. No more stooping and lifting heavy pails of water! No more waiting for the water to seep slowly out of the tank. Just hook the pump nozzle over the edge of the tub and snap a little lever. This one feature alone makes the Graybar worth investigating.

Graybar Tank empties itself by automatic pump. Two speeds—slow for silks and swift for heavy, badly soiled garments.

Then, too, its white porcelain tank, its soft wringer that never breaks a button, its two-speed action (slow for silks and rayons—brisk for the vigorous cleansing action needed for the kiddies garments), its easy-rolling self-lubricating casters making it easy to move from one corner of the laundry or kitchen to the other—all these are features which will convince you of the superlative quality of this machine.

The Graybar holds 12 gallons of water and occupies only 25 square inches of floor space. It costs less than three cents an hour to operate. Three cents worth of electric service to replace hours of back-breaking "rubbing!"

Decoto Church Having Commencement Service

Plans are being made for a commencement service at the Community church, Sunday at 7:30 o'clock. Several of the grammar and high school seniors will be the honor guests.

The decorative scheme is to be carried out in blue and gold. Special vocal and instrumental music has been arranged. A worship service especially prepared for this occasion is to be led by Rev.

Arthur Seebart, of Niles. "The Four-Fold Life" is a short page-ant, and is included in this program.

R. Banes Anderson, of Oakland, will deliver the evening's message. This young man has spoken here before, and is much appreciated by all. Surely he will make a powerful appeal to the young people. This will conclude the commencement service of song, praise, music, drama, and address.

Young people of Niles, Irving-

ton, Newark and Alvarado are invited to attend this special young people's program.

Frank Martin and family visited relatives here, Sunday.

Mrs. John Kelly, of Turlock, visited her sister, Mrs. Ed Goulart, for a week.

Mr. and Mrs. Wm. Oakes, of San Leandro, visited Clarence Silva and family here, Sunday.

One-Day Round-trip to Big Basin Suggested For This Week-End

Township motorists who have not chosen a longer week-end trip will enjoy the newly reconstructed Saratoga-Big Basin one-day round-trip to Big Basin, otherwise known as California Redwood Park, a basin-shaped tract of 3,800 acres of timber, mostly virgin redwoods, set aside in 1902 as a state forest reserve.

There are several ways of reaching this park and it is advisable to plan a round trip which will include all the scenic attractions offered the visitor. From any point in the township go to San Jose via The Mission or Irvington, then to Saratoga and from there over good gravel road to Congress Springs.

At Congress Springs one enters the reconstructed stretch of six miles to the summit, a great improvement upon the winding road in use for so many years. The new road is an excellent wide graded gravel highway, sufficiently wide for three of four lanes of traffic at all points, and with easy grades. Minor construction will be encountered but none that will interfere with traffic.

From the summit a wide dirt road drops down easy grades into the floor of the basin, many beautiful panoramas and inspiring views of the surrounding ranges being offered from these elevations.

Returning one may travel over a gravel road to Boulder Creek and by pavement to Felton and Santa Cruz. A paved short-cut four miles long, leaves Felton and connects with the Santa Cruz-Saratoga road at Scott Valley.

Washington Legion Juniors Are Defeated

The Hayward American Legion Juniors' baseball team, sponsored by the Dohner & Galbraith Ford agency in Hayward, opened its American Legion tournament season on Memorial Day by trouncing the Washington Legion Juniors, 16 to 8, at Newark.

Borba after a preliminary streak of wild pitching, settled down and pitched a stellar brand of ball, striking out 16 players and allowing but seven hits. The Hayward boys scored sixteen hits and stole five bases.

Of the Newark hits, Brown, second baseman, got three. The score was 16 to 2 in the seventh inning when the Newark boys staged a rally.

Next Sunday the Hayward team will play the Thrasher ark Juniors at the Bret Harte school grounds in Hayward. The game will start at 10:30 o'clock.

Knocks are always annoying. The principal causes are: lack of oil, too lean a mixture, spark advanced too far, wrong timing, and pre-ignition due to excessive carbon.

Valve springs become weakened after long use and should be replaced.

YOUR entire week's laundry is returned to you—washed spotlessly sweet and clean—on time, as promised. We're keen for quick delivery.

YET WE'RE SLOW

Sounds like a paradox. But we don't sacrifice careful work for speed. We wash your things as slowly and as carefully as you would do yourself. Our staff is large and skilled, our equipment most extensive, hence we can do any job right and still deliver your wash on time.

4¢ worth of electricity cooks the dinner for 4 people

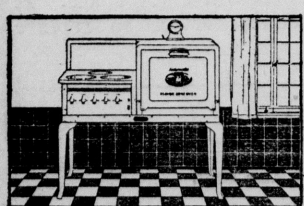

ABOUT 1c per person, less than the price of the coffee itself—that's the AVERAGE cost of cooking a family's meal with an electric range. Perhaps you never believed it to be so economical.

But remember, the electric rates were cut about a year ago. And today the price of electricity is below the price of electricity in the year 1914, although the cost of other things rose skyward as you well know.

What is the monthly cost?

A survey among our customers' accounts shows that the AVERAGE sum paid by our customers for cooking electrically, including lighting and small appliances, is but \$5.76 per month! An amazing low price for modern comfort, cleanliness and perfect baking.

Come in to our office or a dealer's store and see these modern electric ranges that are so reasonable to operate.

How the electric range improves cooking! Tender, juicy browned roasts with all flavor sealed in. Steaks broiled without smoking. Cakes fine in texture. Pies with delicious, flaky undercrusts. Such cooking you can do with less effort electrically, because the electric range is fully automatic.

The new porcelain enameled electric ranges are speedy. Biscuits, for example, are put into cold oven. They are done perfectly in about 11 minutes.

YOUR QUESTION AND ITS ANSWER

QUESTION—"I have often wondered if your treatments would help my throat trouble. I have catarrh and periodical sore throat. Please advise."

ANSWER—"Get this fact firmly fixed in your mind, then all doubt as to what drugless treatments will do in your case will vanish. First have an examination to determine the true cause of your trouble, then take your treatments regularly and you will have no more trouble. Your case is like many that we treat. There is no doubt but that your system is toxic and the blood acid. This must be corrected and all other causes removed, before you can expect to stay well."

What Is Advertising Worth?

WHAT DO YOU GET IN RETURN FOR THE MONEY
PAID THE TOWNSHIP REGISTER FOR ADVERTISING?

Read the Statement
by advertising agency
quoted here:

"The country weekly has the highest value per copy of any known advertising medium," thus speaks James O'Shawhnessy, executive secretary of the American Association of Advertising Agencies."

Then get your pencil and let's do some figuring.

If you buy space in a city paper, even a small city paper, you pay from 75c to over \$5.00 an inch—in the country weekly you pay the negligible sum of 25c an inch. You say, "Oh! but the reason is, the city paper has such a large circulation." True. But Mr. O'Shawhnessy says, that advertising in the weekly has the highest value per copy. Why? Because more people will intelligently read your ad in the weekly than in the daily—everyone who reads the paper reads the advertisements. And if the weekly paper has the highest value per copy, then you are getting the most for your money in the Township Register.

NEW-TYPE WASHER EMPTIES ITSELF; HAS TWO SPEEDS

Two outstanding features that will appeal to the woman who does her own work are to be found in the new Graybar washing machine offered by Vieux Brothers. The tank empties itself! In two minutes a pump operated by the washer motor does what it takes several minutes of stooping and lifting of heavy pails of water to accomplish otherwise. Emptying the tub is often the hardest part of the washing. The Graybar does it for you. Then it has two speeds—one slow enough to wash but not in-

jure delicate fabrics such as silk hose or rayon underwear, the other brisk enough to whisk the dirt out of the dirtiest overalls or cords in a few minutes. Go in and ask Mr. Vieux to show it to you!

RADIO SHOW AT SAN FRANCISCO ON AUGUST 17

Editorial Comment

By NORMAN H. PARKS, PUBLISHER REGISTER

(Continued From Page One)

could not reconcile polish and brains with prize-fighting. But we were assured that in Mr. Tunney was exemplified this strange anomaly. Recent revelations may make some believe that they were wrong in the assumption of the Tunney virtue. This confession of misplaced faith is naturally determined largely by one's own taste in heroes.

It is altogether possible for a man to be brutal and still have a clever mind. It is not possible for a man to be brutal and be refined. It may be possible for a man to make prize fighting a business and still be capable of erecting a thin veneer of culture over the baser foundation of his true nature. It is not possible, though, for a man to maul an antagonist for pay and still be fundamentally a gentleman.

Tunney is neither a gentleman nor basically cultured.

An affair with a plumber's wife was not necessary to reveal the alloy of his character. His business betrayed it. There is no harmony or concord between the professional boxer and the refinement of an American home.

Tunney is a pug—that is all. No amount of learning or association with his betters will make him less than the product of a brutal and base amusement still shaming a nation by being legalized in some localities of its vast domain, and in this enlightened age.

For Polly Lauder—we are not sure that she is entitled to sympathy. A girl of intelligence and gentle breeding, certainly she should have known she could not make a silk purse out of a sow's ear. Not even mercenary motives can excuse her bad taste for she had money. A poor girl might have been excused on the plea of poverty.

If before the marriage, Miss Lauder was unable to penetrate the mote of respectability and see Tunney as he really was, by this time she has doubtless done so, if, in truth, her tastes are above his. Finding at last that there is no affinity between their natures, the natural denouement of the Tunney-Lauder drama will be Reno and a divorce. Gentleman Tunney, indeed!
